

## **Paul Toliuszis Appreciation**

I'm a 57 year old yoga teacher in Miami Beach. I've been living the awakened life down here for many years, very far into non-dualism, teaching yoga, expert at manifestation, just having an amazing life.

I decided to engage in a six-month coaching relationship with Saniel and Linda. I read Saniel's book, and he said, "Hey, we're open to working with people one-on-one." I had never really done that before, and I just felt drawn to it.

It's really worth it! They have, not a system or a protocol, but their approach to awakening really, really works. Things happen! Just interacting with them changed my life in an amazing way that I never saw coming. Many deep insights and awakenings. What it led to was a fulfillment of myself where now the coaching relationship is ended and I am just so content.

A deeper understanding [has arisen] — past the non-dualism as spacious consciousness into more of an embodied lifestyle, where all my answers come from within. My confidence comes from within. My love of other people is greatly enhanced.

This process that I undertook with them was surprising! Things started to happen for me, and I went on a journey, and they were right there with me every week, greenlighting me, giving me so much love, so much support, so much wisdom. I really, really appreciated their expertise and the depth of human relationship that they showed me.

So I highly recommend working with them. If you can, give them a call, and they'll figure out a way to help you in your life. All the best, all my love! Namaste.
